

Solano Veterans Mobility Assessment

STA Board
March 16, 2022

Background

- 2017-19 Solano Mobility Study for Older Adults and People with Disabilities Update
- #1 issue – Traveling to Medical Appointments
- Significant community feedback traveling specifically to VA medical centers is challenging

Direction

- December 2020 – CTSA Priority Project to conduct the Solano Veterans Mobility Assessment

Purpose

- Broadly assess veterans' ability to access VA and other medical services and other destinations
- Broadly assess opportunities to improve mobility and coordination between Solano VA medical shuttles, public transit, and other transportation services

Approach

- Interviewed 24 individuals and organizations who work with Solano veterans

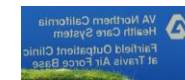

Findings

- VA offers transportation services to VA medical appointments
- Health care services offered vary by location
- Martinez VA medical center has the second highest level of services
- Fairfield OPC (Outpatient Clinic) is located beyond secured gate of Travis AFB. This has created access challenges to veterans easily accessing clinic at times.

Veterans Services

Mayors

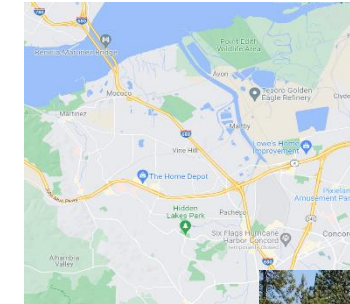

Veterans & advocates

Opportunities

- Improve Solano Veterans' mobility to out of county VA medical facilities
- Improve access to the Fairfield Outpatient Clinic which is located behind a secured gate on Travis AFB

CTSA and STA Staff Recommendations for Veterans' Pilot Program

- Expand the GoGo Grandparent Program to include Veterans of any age to receive trips to medical appointments both within Solano County and 3 designated locations in Contra Costa
- Expand the Intercity Taxi Card Program to provide WAV vehicle rides to Veterans within Solano County and to 3 designated locations in Contra Costa AND to allow Solano County Veterans of any age to use the program for trips to/from Travis AFB
