INTRODUCTION

The Solano Transportation Authority (STA) is a Joint Powers Authority comprised of members including the cities of Benicia, Dixon, Fairfield, Rio Vista, Suisun City, Vacaville, and Vallejo, and the County of Solano. The STA serves as the Congestion Management Agency (CMA) for Solano County and is responsible for countywide transportation planning and programming of State and Federal funding for transportation projects within the county and through its Solano Transit Consortium, coordinates intercounty transit service called Solano Express, various fixed route, and Solano Paratransit Services.

As the CMA for Solano County, the STA is responsible for assisting local jurisdictions in attaining their transportation goals. A large aspect of reaching these goals comes from successful public education and information sharing of the current and future needs, active projects, and available programs.

BACKGROUND

In 2008, the STA Board adopted Solano's first Safe Routes to School Plan (Plan) and authorized STA staff to create a Safe Routes to School Program in Solano County. This Plan provided the direction for the SR2S Program through 2012 when the STA and the various SR2S Advisory Committees began the process of updating the 2008 Plan. The updated Plan was adopted by the STA Board in October 2013 and the SR2S Program has continued to grow increasing participation of schools each year. STA Staff, along with its partner agency, Solano Public Health, are currently engaging the Safe Routes to School Community Task Forces in each city including the school district to update the Plan and engage them on the Program's 5-year vision which includes evaluating the effectiveness of the Program. One of the Program's primary goals is to work with pilot schools to invest in changing the culture to a more walkable and bikeable school. This 2013 STA SR2S plan can be viewed [here](#).

STA is now looking for consultant assistance in completing the third iteration of the Safe Routes to School Plan ("Plan"). The vision is to develop a comprehensive Plan that is the blueprint for a safer, bicycle-friendly, and walkable Solano County. The Plan will use six complementary strategies known as the "Six Es" to inspire as many residents, parents, and students as possible to bike or walk to schools instead of driving a motorized vehicle. The Six Es are a national, comprehensive approach to Safe Routes to Schools planning efforts that combine infrastructure and non-infrastructure projects and programs. The Six Es are:

- **Engineering** – Identify infrastructure projects that would improve the safety of pedestrians, bicyclists, and motorists along Schools in Solano County and on school campuses.
- **Enforcement** – Develop strategies to deter the unsafe behavior of drivers, bicyclists, and pedestrians, and encourage all road users to obey traffic laws and share the road to improve roadway safety around school grounds. Strategies should not be limited to law enforcement and strive to be self-sustaining.
- **Education** – Identify educational programs that teach community members and school-age children bicycle, pedestrian, and traffic safety skills, laying the foundation for a culture of safe and vibrant communities in Solano County.
- **Encouragement** – Identify special events, clubs, contests, and ongoing activities that encourage more walking, bicycling, or carpooling through fun activities and incentives in order to reduce pollution and develop a culture of walking and biking to and from school.

- **Equity** – Advance strategies that address the concept that transportation infrastructure and educational programs should aim to equitably address the needs of all people, regardless of economic class, race, sex, age, ability, or any other kind of social distinguisher.
- **Evaluation** – Evaluating the projects and programs is fundamental to assessing successes of each of the “E’s” above and helps to determine which programs were most effective and helps to identify ways to improve programs. Certain evaluation measures – such as citywide bicycle and pedestrian counts, student hand tallies, and Big Data– are also critical to gathering needed information to compete for outside grant funding.

The selected consultant will work with the Solano SR2S Program staff, the STA Safe Routes to School Advisory Committee and engage other STA identified stakeholders in the development of this plan. These stakeholders include the 7 City SR2S Community Task forces (or its equivalent), Solano County Department of Public Health, the 7 Solano County School Districts, school PTAs, STA Bicycle and Pedestrian Advisory Committees (BAC/PAC) and Solano County local law enforcement agencies.

LOCAL PREFERENCE POLICY

The STA has adopted a Local Preference Policy which encourages the hiring of local firms. While there is no adopted goal for this Project, firms are still encouraged to utilize the services of local firms in the preparation of a response to this RFQ. The STA has prepared a database of contact information for local firms for convenience purposes only and without guarantees as to the ability of such firms to provide the services. This database and the Local Preference Policy can be viewed at <https://sta.ca.gov/operations/rfp-rfq-local-preference/>.

DISADVANTAGE BUSINESS ENTERPRISE (DBE) GOAL

The STA has adopted a DBE goal which encourages the hiring of registered disadvantaged businesses which can be found at <https://sta.ca.gov/work-with-sta/procurement-opportunities/>. ~~As this Project is utilizing federal funds, the anticipated participation goal for DBE firms for this Project, if worked to be performed involves subconsultants, is set in accordance with goal of the California Department of Transportation, which is currently set at 22.2 percent.~~ As this Project is utilizing federal funds, the anticipated participation goal for DBE firms for this Project, is 21%. Participation by DBE consultant or subconsultants shall be in accordance with information contained in the Consultant Proposal DBE Commitment (Exhibit 10-O1), or in the Consultant Contract DBE Information (Exhibit 10-O2) attached to and incorporated as part of this contract. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.

The current percentage requirement can be found at <https://dot.ca.gov/programs/local-assistance/guidance-and-oversight/disadvantaged-business-enterprise>.

COST-PLUS-FIXED FEE OR LUMP SUM OR FIRM FIXED PRICE CONTRACTS
(CALCULATIONS FOR ANTICIPATED SALARY INCREASES)

1. Calculate Average Hourly Rate for 1st year of the contract (Direct Labor Subtotal divided by total hours)

Direct Labor Subtotal per Cost Proposal	Total Hours per Cost Proposal	=	Avg Hourly Rate	5 Year Contract Duration
\$250,000.00	500		\$50.00	Year 1 Avg Hourly Rate

2. Calculate hourly rate for all years (Increase the Average Hourly Rate for a year by proposed escalation %)

	Avg Hourly Rate		Proposed Escalation			
Year 1	\$50.00	+	2%	=	\$51.00	Year 2 Avg Hourly Rate
Year 2	\$51.00	+	2%	=	\$52.02	Year 3 Avg Hourly Rate
Year 3	\$52.02	+	2%	=	\$53.06	Year 4 Avg Hourly Rate
Year 4	\$53.06	+	2%	=	\$54.12	Year 5 Avg Hourly Rate

3. Calculate estimated hours per year (Multiply estimate % each year by total hours)

	Estimated % Completed Each Year		Total Hours per Cost Proposal		Total Hours per Year	
Year 1	20.0%	*	5000	=	1000	Estimated Hours Year 1
Year 2	40.0%	*	5000	=	2000	Estimated Hours Year 2
Year 3	15.0%	*	5000	=	750	Estimated Hours Year 3
Year 4	15.0%	*	5000	=	750	Estimated Hours Year 4
Year 5	100%	*	5000	=	500	Estimated Hours Year 5
Total	100%		Total	=	5000	

4. Calculate Total Costs including Escalation (Multiply Average Hourly Rate by the number of hours)

	Avg Hourly Rate (calculated above)		Estimated hours (calculated above)		Cost per Year	
Year 1	\$50.00	*	1000	=	\$50,000.00	Estimated Hours Year 1
Year 2	\$51.00	*	2000	=	\$102,000.00	Estimated Hours Year 2
Year 3	\$52.02	*	750	=	\$39,015.00	Estimated Hours Year 3
Year 4	\$53.06	*	750	=	\$39,795.30	Estimated Hours Year 4
Year 5	\$54.12	*	500	=	\$27,060.80	Estimated Hours Year 5
	Total Direct Labor Cost with Escalation			=	\$257,871.10	
	Direct Labor Subtotal before Escalation			=	\$250,000.00	
	Estimated total of Direct Labor Salary Increase			=	\$7,871.10	Transfer to Page 1

NOTES:

1. This is not the only way to estimate salary increases. Other methods will be accepted if they clearly indicate the % increase, the # of years of the contract, and a breakdown of the labor to be performed each year.
2. An estimation that is based on direct labor multiplied by salary increase % multiplied by the # of years is not acceptable.
(i.e. \$250,000 x 2% x 5 yrs = \$25,000 is not an acceptable methodology)
3. This assumes that one year will be worked at the rate on the cost proposal before salary increases are granted.
4. Calculations for anticipated salary escalation must be provided.

In this event, this provisional ICR will become the actual and final ICR for reimbursement purposes under this contract.

To perform a CUF, the DBE must also be responsible with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether a DBE is performing a CUF, evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing, and other relevant factors.
- G. A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.
- H. If a DBE does not perform or exercise responsibility for at least thirty percent (30%) of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of the contract than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that it is not performing a CUF.
- I. CONSULTANT shall maintain records of materials purchased or supplied from all subcontracts entered into with certified DBEs. The records shall show the name and business address of each DBE or vendor and the total dollar amount actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE prime consultants shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.
- J. Upon completion of the contract, a summary of these records shall be prepared and submitted on the form entitled, "Final Report-Utilization of Disadvantaged Business Enterprise (DBE), First-Tier Subconsultants" CEM-2402F [Exhibit 17-F, of the LAPM], certified correct by CONSULTANT or CONSULTANT's authorized representative and shall be furnished to the Contract Administrator with the final invoice. Failure to provide the summary of DBE payments with the final invoice will result in twenty-five percent (25%) of the dollar value of the invoice being withheld from payment until the form is submitted. The amount will be returned to CONSULTANT when a satisfactory "Final Report-Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subconsultants" is submitted to the Contract Administrator.
- K. If a DBE subconsultant is decertified during the life of the contract, the decertified subconsultant shall notify CONSULTANT in writing with the date of decertification. If a subconsultant becomes a certified DBE during the life of the Contract, the subconsultant shall notify CONSULTANT in writing with the date of certification. Any changes should be reported to STA's Contract Administrator within 30 days.
