## **2. APPROVAL OF AGENDA**

By consensus, the Transit Element Committee approved the agenda.

## **3. OPPORTUNITY FOR PUBLIC COMMENT**

None.

## **4. CONSENT CALENDAR**

**A. None.**

## **5. INFORMATIONAL – DISCUSSION ITEMS**

### **A. Comprehensive Transportation Plan Schedule and Purpose**

#### **1. What is STA's Comprehensive Transportation Plan?**

#### **2. Overview of CTP Transit Element**

##### **a. Relevant Plans – Current and Future**

Robert Guerrero, STA began by discussing the objectives and proposed schedule for the STA's update of the Comprehensive Transportation Plan (CTP).

Kathrina Gregana, STA followed by providing an overview of the Transit Element of the CTP and the relevant state, regional and local plans and studies that will inform the element.

Committee Member/Public Comments:

None.

### **B. Presentations – Overview of Transit System Part I**

#### **Water Emergency Transportation Authority (WETA) San Francisco Bay Ferry Service – Vision and Plan Priorities**

Seamus Murphy, Executive Director of the Water Emergency Transportation Authority (WETA), provided an overview of the regional San Francisco Bay Ferry service (operated by WETA) that serves Solano County at two stops in Vallejo. He discussed the Ferry service's progress on ridership recovery from the pandemic, the 2050 Service Vision and Business Plan that is currently being developed, and future projects for new stations and electrifying ferry fleets.

Committee Member/Public Comments

Josh Pilachowski, DKS Associates and consultant for the CTP Update, inquired about the timeline for implementing the proposed new ferry routes in the WETA's draft vision plan. Mr. Murphy responded that the Redwood City and Berkeley ferry terminals are planned to be implemented in the immediate term (over the next five years) as well as the Treasure Island and Mission Bay terminals, which were put on pause due to the RM3 lawsuit. The remaining stations are planned over the long-term horizon. He also noted that the nascency of alternative fuel technology is limiting WETA's ability to implement planned long-haul routes.

Supervisor Mitch Mashburn asked if WETA is conducting studies to ensure that the ferry terminals that are considering alternative fuels technology have the capacity to accommodate electric or hydrogen fuel infrastructure that are needed. Mr. Murphy responded that this issue is a concern that WETA is considering and planning for. As an example, they are considering generators to operate electric vessels or thinking about utilizing renewable energy sources, such as offshore wind, to provide greater energy resilience. In response to a question about WETA's plans for hydrogen fuel infrastructure, Mr. Murphy responded that if hydrogen fuel will be part of WETA's service network permanently, their initial plan would be to store hydrogen in tanks in a different facility that would be delivered in liquid form and then converted into gaseous form for use by vessels.

Dianne Feinstein, FAST representative, asked about the price range of zero-emission vessels, to which Mr. Murphy responded that smaller 150 passenger vessels cost around \$8-9 million and larger 250 passenger vessels cost approximately \$10-12 million.

Chair Robert McConnell asked if there is an existing ferry route that would allow travel from Vallejo to the San Francisco International Airport (SFO). Mr. Murphy responded that there isn't a direct ferry route at this point in time and that the available route would be for passengers to take a ferry to South San Francisco and take a shuttle from there to the airport, which is a long and inconvenient trip. He pointed to major dredging issues being experienced in Vallejo and would be insurmountable in San Francisco to get a vessel close enough to make it convenient for passengers to get to the SFO airport. Ruben Brunt, PCC representative, echoed Chair McConnell's comments about the value and potential ridership such a service from Solano County to the SFO airport would bring.

### **Passenger Rail System**

- a. Capital Corridor Joint Powers Authority (CCJPA) – Vision and Plan Priorities**
- b. State and Regional Efforts**
- c. Other State and Member Agency Rail Planning Studies**

The Capitol Corridor Joint Powers Authority (CCJPA) Manager of Planning, Jim Allison, presented on their intercity rail service that connects to Solano County via the Solano Rail Hub (Suisun Fairfield Amtrak Station) and the Fairfield-Vacaville Hannigan Station. He discussed CCJPA's governance structure, their service restoration and expansion plans, upcoming safety projects, the new contactless payment system being implemented in their trains called Tap2Ride (California Integrated Travel Project (Cal-ITP)), and their efforts to develop their new vision plan through the Federal Railroad Administration's (FRA) Corridor ID Program.

David Kutrosky, STA's Rail Consultant, followed by providing an overview of the state and regional rail plans and initiatives that would be going through and impacting Solano County, including the 2023 State Rail Plan, Link21 Project, SMART State Route 37 Rail Study, and the submission of the Novato to Sacramento corridor to the FRA as a potential new intercity passenger rail corridor. Mr. Kutrosky subsequently summarized the current local rail plans and projects in Solano County, including the Solano Rail Hub Project, Vallejo Passenger Rail Study, and the Solano Rail Crossings Plan Update.

### **Committee Member/Public Comments:**

Ruben Brunt, PCC representative, shared that he is a Benicia resident and raised his difficulties in accessing the train from Benicia even though the train passes through the city. He continued by saying that Benicia residents can typically access the train by taking a Lyft/Uber ride to either the

Martinez station across the Carquinez Bridge or to the Suisun station. He asked if CCJPA has considered building a new station in Benicia or if they've considered options on what could be done in the future to get more Benicia residents to use the train service.

Mr. Allison from CCJPA responded that building a new station will primarily be the decision of the local community, with several important considerations that need to be made: (1) more stations will result in a slower train service overall since the train will be stopping more often, (2) buy-in from the host railroad is needed to mitigate the potential loss of travel time from a new station, (3) the significant financial investment by the community, (4) and weighing the investment of building a new station to utilizing existing alternatives to connect to nearby stations such as bus connections. There was discussion about the idea of potentially expanding Solano Mobility's First Last Mile Services to Martinez in the future to address Mr. Brunt's comment. Mayor Alma Hernandez commended the CCJPA for their Cal-ITP initiative and shared the favorable reception to the new technology by the community.

### **Solano Mobility Programs**

- a. Employer Commuter Programs**
- b. Mobility Services for Priority Populations**

Debbie McQuilkin and Lorene Garrett from STA provided an overview of the programs and services provided by Solano Mobility. Ms. Garrett discussed the employer commuter programs and Ms. McQuilkin covered the programs and services targeting older adults, people with disabilities, low-income residents, Veterans, and transit-dependent individuals.

#### Committee Member/Public Comments:

Chair McConnell asked if the Travel Training Program is available in languages other than English. Ms. McQuilkin responded that the program is currently provided in Spanish, but STA staff could make arrangements to accommodate the request if there is a need for a travel training session in another language.

### **History of Transit in Solano County**

Daryl Halls from STA provided a brief overview of the history of transit in Solano County.

#### Committee Member/Public Comments:

None.

## **6. ACTION ITEMS**

- A. None.**

## **7. ROUND TABLE DISCUSSION**

## **8. ADJOURNMENT**

The meeting was adjourned at 5:20 p.m.
