INTRODUCTION

The Solano Transportation Authority (STA) is a Joint Powers Authority comprised of members that include the cities of Benicia, Dixon, Fairfield, Rio Vista, Suisun City, Vacaville, and Vallejo, and the Unincorporated County of Solano. Serving as the Bay Area County Transportation Agency (BACTA) for Solano County, the STA is responsible for coordinating countywide transportation plans, programs, and projects under a Joint Powers Authority among the Cities and County of Solano. Key objectives of the STA include reducing single-occupancy vehicle trips and enhancing local and regional connectivity through Solano's transit systems. To support of these goals, the agency maintains a countywide Traffic Model that serves as the primary regional tool for projecting motor vehicle traffic volumes based on changes in land use or transportation infrastructure in the County.

The Napa Valley Transportation Authority (NVTa) serves as the Congestion Management Agency for Napa County, responsible for programming state and federal funds for local projects. As the Joint Powers Authority, NVTa handles the county's short-and long-term regional transportation planning, working closely with its local, regional, state and federal partners to improve Napa County's streets, highways, and bicycle and pedestrian facilities.

This RFP seeks the selection of a Traffic Modeling Consultant to conduct the Solano-Napa Base Year Mode Update. This effort will be a partnership between the STA and NVTa.

BACKGROUND

The Solano Transportation Authority (STA), in partnership with the Napa Valley Transportation Authority (NVTa), has maintained an activity-based travel demand model called the Solano-Napa Activity Based Model (SNABM). The primary purpose of the SNABM is to analyze the Congestion Management Program (CMP) and to serve as the primary regional tool for projecting changes in motor vehicle traffic volumes based on changes in land use or transportation infrastructure in Solano and Napa Counties.

The most recent updates to the SNABM involved refining the land use data and transportation network to extend the model's forecast horizon from 2040 to 2050, aligning it with the Metropolitan Transportation Commission's (MTC) regional model. These minor updates to the model have laid the groundwork for STA and NVTa staff to advance the model further by updating the base year from 2015 to 2025. This effort will factor in new traffic counts which are essential for validating the new base year. Additional components of the scope of work will include evaluating the model's Traffic Analysis Zones (TAZs) and potentially redistributing their boundaries to reflect traffic conditions at the local level, while ensuring consistency with MTC's Regional Model and the upcoming Plan Bay Area 2060 update.

As part of this work, the STA and NVTa staff will be working closely with the Model Technical Advisory Committee (TAC), composed of public works and planning staff from Solano and Napa jurisdictions and Caltrans staff. The estimated timeframe for completing this work is one year.

FINAL PRODUCT

The final products will be the following:

- Updated the SNABM with a 2025 Base Year
- Revised Model User Guide for the SNABM
- Final Report summarizing the SNABM Base Year Update Effort and Documentation

After the SNABM Base Year Update is completed, STA and NVTa staff may retain the selected Traffic Modeling Consultant for on-call modeling services. The scope and budget of the on-call modeling services will be developed separately and determined after the completion of this project.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) GOALS

The STA has adopted a DBE goal that encourages the hiring of registered disadvantaged businesses, which can be found at <https://sta.ca.gov/work-with-sta/procurement-opportunities/>. This Project utilizes federal funds; the anticipated participation goal for DBE firms for the Project is **22%**.

Participation by DBE consultants or sub-consultants shall be in accordance with information contained in the Consultant Proposal DBE Commitment (Exhibit 10-01) attached to and incorporated as part of this RFP. If a DBE sub-consultant is unable to perform, the CONSULTANT must make a good-faith effort to replace him/her with another DBE sub-consultant, if the goal is not otherwise met. DBE Information (Exhibit 10-02) attached to and incorporated as part of this RFP must be included in best qualified consultant's executed consultant contract. Even if no DBE participation will be reported, the successful proposer must execute and return the form.

The current percentage requirement can be found in the "Resources" link at <https://dot.ca.gov/programs/local-assistance/local-civil-compliance/disadvantaged-business-enterprise-dbe>.

The STA has adopted a DBE goal which encourages the hiring of registered disadvantaged businesses which can be found at <https://sta.ca.gov/work-with-sta/procurement-opportunities/>. The hiring of registered DBEs is not required for this project but remains desirable.

LOCAL PREFERENCE POLICY

The STA has adopted a Local Preference Policy which encourages the hiring of local firms. While there is no adopted goal for this Project, firms are still encouraged to utilize the services of local firms in the preparation of a response to this RFP. The STA has prepared a database of contact information for local firms for convenience purposes only and without guarantees as to the ability of such firms to provide the services. This database and the Local Preference Policy can be viewed at <https://sta.ca.gov/operations/rfp-rfq-local-preference/>.

SCOPE OF SERVICE TASKS

STA and NVTa intend to procure the services of a qualified and committed Traffic Modeling Consultant to evaluate the performance of the SNABM and develop a set of recommendations to enhance model features, which include, but is not limited to, network granularity, TAZs and land use improvements. The selected consultant will also update the SNABM base year from 2015 to 2025 and SNABM User Guide to reflect the new model version and updates.

TRAFFIC MODELING CONSULTANT SCOPE OF WORK

Task 1. Project Management

Task 1.1 Kick-off Meeting

STA and NVTa staff will hold a kick-off meeting with the selected consultant to review the project scope, schedule, and anticipated milestones and deliverables.

Task 1.2 Project Check-in Meetings

Check-in meetings will be conducted with STA and NVTa staff. Meeting will be held at least biweekly for the duration of the project. The selected consultant will be taking the lead in the development of the agenda for each check-in.

Task 1.3 Project Management

This task will capture the ongoing project management responsibilities for Task 1-5.

Deliverable
1.1 Finalized budget and detailed project schedule. 1.2 Project Check-in Meeting Agenda and Notes 1.3 Project Management

Task 2. Evaluate Solano- Napa Activity Based Model (SNABM) Performance and Identify Recommendations

The selected Consultant will evaluate the performance of the current SNABM and assess how it compares to the latest modeling industry standards.

In consultation with the Metropolitan Transportation Commission (MTC), the Consultant will develop a set of recommendations along with associated costs to enhance the traffic model. The scope of the recommendations can include, but is not limited to, identifying improvements in the network, traffic analysis, zones, transit, active modes (walk/bike) and freight (goods movement), along with exploring the addition of new features to the model, such as an active transportation and/or Visitor Model for Napa. The proposed recommendations will be presented to the Model Technical Advisory Committee (TAC) for their review and feedback. The implementation of the recommendations will be captured under Task 3.

Deliverable
1) Memo Summarizing Current Model Conditions 2) Memo Summarizing Recommended Model Improvements and Associated Costs to Implement the Additional Improvements to the Model

Task 3. Update the Base Year of the SNABM from 2015 to 2025

The consultant will support STA and NVTa staff in updating the model's base year while maintaining consistency and documentation to align with MTC's regional model. This includes tracking regional model changes as MTC heads into their next 2026 RTP update effort. The data should reflect the latest information available.

Task 3.1 Traffic Counts Data Collection

This task includes collecting new traffic counts, which ideally should be scheduled to commence in Fall 2025 and if needed Spring 2026. Additional traffic count adjustments recommended under Task 2 may be included under this task. Consultant should first inquire of recent traffic counts taken that can be incorporated into the model before conducting traffic counts.

The traffic counts will be utilized for model calibration and validation purposes. This includes but is not limited to leveraging Performance Measurement System (PeMS) data, which will have to be analyzed carefully for completeness and accuracy. Additional data can be leveraged using older counts and analyzing trends in the Caltrans Traffic County database. To fill in missing data counts and to support the validation of the model, the Consultant will also identify a cost-effective approach to collecting new traffic counts, which includes accounting for turn movement counts.

Task 3.2 Socio-Economic Data

The primary task will be to update the socio-economic data of the model with the latest available household surveys and census data (e.g. CTPP, ACS) to develop the 2025 base year ensuring consistency MTC/ABAG household and employment forecasts. Additional land use adjustments and updated modeling guidelines recommended under Task 2 will be included under this task.

Task 3.3 Traffic Analysis Zones (TAZs)

The primary task will be to update, as needed, the boundaries of the Traffic Analysis Zones (TAZs) to reflect local zoning adjustments. Additional TAZ adjustments recommended under Task 2 will be included under this task.

Task 3.4 Network Improvements for 2025 and Forecast Year

The highway, transit, and bike/pedestrian networks will be updated to reflect services for the new 2025 base year and forecasted year. This task will also include the inclusion of transportation projects captured in MTC's Regional Network for both the new base year and forecast year. Additional network adjustments will be included under this task, which includes enhancing network granularity at the local level and/or additional improvements recommended under Task 2.

Task 3.5 Model Calibration, Validation, Forecast Year and Documentation

Model calibration will be conducted for all components of the model to the latest calibration coefficients as received from MTC. Calibration will also use the location-based data to ensure travel patterns in important corridors.

Model validation will be conducted to match the observed data such as traffic counts and transit ridership for the new base year and forecast year. A set of validation targets will be recommended by the consultant in coordination with the Model TAC/MTC staff. Once the validation targets are established all reasonable steps will be taken to meet the validation

targets and the documentation needed to report to MTC and/or Caltrans staff. The Model needs to be consistent with MTC's regional model.

Deliverables
1) Memo summarizing the changes to the SNABM (e.g. Land use, Traffic Analysis Zones, Network Improvements)
2) Memo summarizing Model Validation Process and Documentation
3) Memo summarizing land use and traffic volume trends for 2025 and forecast year
4) Memo summarizing traffic counts, broken down for Napa and Solano Jurisdictions for both new base year and forecasted year

Task 4. Stakeholders and Advisory Committee Outreach

Task 4.1 Working with Model TAC

- B. Exceptions will not necessarily result in denial of recommendation for award, but will be considered in determining CONSULTANT responsibility. Disclosures must indicate to whom exceptions apply, initiating agency, and dates of action.
- C. Exceptions to the Federal Government Excluded Parties List System maintained by the General Services Administration are to be determined by the Federal Highway Administration.

ARTICLE XVIII FUNDING REQUIREMENTS

- A. It is mutually understood between the parties that this contract may have been written before ascertaining the availability of funds or appropriation of funds, for the mutual benefit of both parties, in order to avoid program and fiscal delays that would occur if the contract were executed after that determination was made.
- B. This contract is valid and enforceable only, if sufficient funds are made available to STA for the purpose of this contract. In addition, this contract is subject to any additional restrictions, limitations, conditions, or any statute enacted by the Congress, State Legislature, or STA governing board that may affect the provisions, terms, or funding of this contract in any manner.
- C. It is mutually agreed that if sufficient funds are not appropriated, this contract may be amended to reflect any reduction in funds.
- D. STA has the option to void the contract under the 30-day termination clause pursuant to Article VI, or by mutual agreement to amend the contract to reflect any reduction of funds.

ARTICLE XIX CHANGE IN TERMS

- A. This contract may be amended or modified only by mutual written agreement of the parties.
- B. CONSULTANT shall only commence work covered by an amendment after the amendment is executed and notification to proceed has been provided by STA's Contract Administrator.
- C. There shall be no change in CONSULTANT's Project Manager or members of the project team, as listed in the approved Cost Proposal, which is a part of this contract without prior written approval by STA's Contract Administrator.

ARTICLE XX DISADVANTAGED BUSINESS ENTERPRISES (DBE) PARTICIPATION

- A. This contract is subject to 49 CFR, Part 26 entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs". Consultants who obtain DBE participation on this contract will assist Caltrans in meeting its federally mandated statewide overall DBE goal.
- B. The goal for DBE participation for this contract is _____. Participation by DBE consultant or subconsultants shall be in accordance with information contained in the Consultant Proposal DBE Commitment (Exhibit 10-O1), or in the Consultant Contract DBE Information (Exhibit 10-O2) attached to and incorporated as part of this contract. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.
- C. DBEs and other small businesses, as defined in 49 CFR, Part 26 are encouraged to participate in the performance of contracts financed in whole or in part with federal funds. CONSULTANT or subconsultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. CONSULTANT shall carry out applicable requirements of 49 CFR, Part 26 in the award and administration of US DOT-assisted agreements. Failure by CONSULTANT to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as STA deems appropriate.

Solano Transportation Authority

Standard Contract

Project:

- D. Any subcontract entered into as a result of this contract shall contain all of the provisions of this section.
- E. A DBE firm may be terminated only with prior written approval from STA and only for the reasons specified in 49 CFR 26.53(f). Prior to requesting STA consent for the termination, CONSULTANT must meet the procedural requirements specified in 49 CFR 26.53(f).
- F. A DBE performs a Commercially Useful Function (CUF) when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether a DBE is performing a CUF, evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing, and other relevant factors.
- G. A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.
- H. If a DBE does not perform or exercise responsibility for at least thirty percent (30%) of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of the contract than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that it is not performing a CUF.
- I. CONSULTANT shall maintain records of materials purchased or supplied from all subcontracts entered into with certified DBEs. The records shall show the name and business address of each DBE or vendor and the total dollar amount actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE prime consultants shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.
- J. Upon completion of the contract, a summary of these records shall be prepared and submitted on the form entitled, "Final Report-Utilization of Disadvantaged Business Enterprise (DBE), First-Tier Subconsultants" CEM-2402F [Exhibit 17-F, of the LAPM], certified correct by CONSULTANT or CONSULTANT's authorized representative and shall be furnished to the Contract Administrator with the final invoice. Failure to provide the summary of DBE payments with the final invoice will result in twenty-five percent (25%) of the dollar value of the invoice being withheld from payment until the form is submitted. The amount will be returned to CONSULTANT when a satisfactory "Final Report-Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subconsultants" is submitted to the Contract Administrator.
- K. If a DBE subconsultant is decertified during the life of the contract, the decertified subconsultant shall notify CONSULTANT in writing with the date of decertification. If a subconsultant becomes a certified DBE during the life of the Contract, the subconsultant shall notify CONSULTANT in writing with the date of certification. Any changes should be reported to STA's Contract Administrator within 30 days.

ARTICLE XXI DISABLED VETERAN BUSINESS ENTERPRISE (DVBE) PROGRAM REQUIREMENTS [delete if not needed and renumber]

- A. Should Military and Veterans Code sections 999 et seq. be applicable to Recipient, Recipient will meet, or make good faith efforts to meet the **3% DVBE** goals (or Recipient's applicable higher goals) in the award of every contract for Project work to be performed under this Agreement.
- B. Recipient shall have the sole duty of authority under this Agreement to each Program Supplement to determine whether these referenced code sections are applicable to Recipient and, if so, whether good faith

For breach or violation of this warranty, STA has the right to annul this contract without liability; pay only for the value of the work actually performed, or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

ARTICLE XXIII DISPUTES

(Option 2 - Replace Paragraph B, above, with the following for contracts requiring the submission of PS&E)

Direct Labor Subtotal before Escalation				=	\$250,000.00	
Estimated total of Direct Labor Salary Increase				=	\$7,871.10	Transfer to Page 1

NOTES:

1. This is not the only way to estimate salary increases. Other methods will be accepted if they clearly indicate the % increase, the # of years of the contract, and a breakdown of the labor to be performed each year.
2. An estimation that is based on direct labor multiplied by salary increase % multiplied by the # of years is not acceptable.
(i.e. \$250,000 x 2% x 5 yrs = \$25,000 is not an acceptable methodology)
3. This assumes that one year will be worked at the rate on the cost proposal before salary increases are granted.
4. Calculations for anticipated salary escalation must be provided.

EXHIBIT 10-I NOTICE TO PROPOSERS DBE INFORMATION

(Federally funded projects only)

The Agency has established a DBE goal for this Contract of _____

1. TERMS AS USED IN THIS DOCUMENT

- The term "Disadvantaged Business Enterprise" or "DBE" means a for-profit small business concern owned and controlled by a socially and economically disadvantaged person(s) as defined in Title 49, Code of Federal Regulations (CFR), Part 26.5.
- The term "Agreement" also means "Contract."
- Agency also means the local entity entering into this contract with the Contractor or Consultant.
- The term "Small Business" or "SB" is as defined in 49 CFR 26.65.

2. AUTHORITY AND RESPONSIBILITY

- A. DBEs and other small businesses are strongly encouraged to participate in the performance of Contracts financed in whole or in part with federal funds (See 49 CFR 26, "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs"). The Consultant must ensure that DBEs and other small businesses have the opportunity to participate in the performance of the work that is the subject of this solicitation and should take all necessary and reasonable steps for this assurance. The proposer must not discriminate on the basis of race, color, national origin, or sex in the award and performance of subcontracts.
- B. Proposers are encouraged to use services offered by financial institutions owned and controlled by DBEs.

3. SUBMISSION OF DBE INFORMATION

If there is a DBE goal on the contract, Exhibit 10-O1 *Consultant Proposal DBE Commitment* must be included in the Proposal. In order for a proposer to be considered responsible and responsive, the proposer must make good faith efforts to meet the goal established for the contract. If the goal is not met, the proposer must document adequate good faith efforts. All DBE participation will be counted towards meeting the contract goal; therefore, all DBE participation shall be collected and reported.

Exhibit 10-O2 *Consultant Contract DBE Information* must be included in best qualified consultant's executed consultant contract. Even if no DBE participation will be reported, the successful proposer must execute and return the form.

4. DBE PARTICIPATION GENERAL INFORMATION

It is the proposer's responsibility to be fully informed regarding the requirements of 49 CFR, Part 26, and the Department's DBE program developed pursuant to the regulations. Particular attention is directed to the following:

- A. A DBE must be a small business firm defined pursuant to 13 CFR 121 and be certified through the California Unified Certification Program (CUCP).
- B. A certified DBE may participate as a prime consultant, subconsultant, joint venture partner, as a vendor of material or supplies, or as a trucking company.
- C. A DBE proposer not proposing as a joint venture with a non-DBE, will be required to document one or a combination of the following:
 1. The proposer is a DBE and will meet the goal by performing work with its own forces.
 2. The proposer will meet the goal through work performed by DBE subconsultants, suppliers or trucking companies.
 3. The proposer, prior to proposing, made adequate good faith efforts to meet the goal.

- D. A DBE joint venture partner must be responsible for specific contract items of work or clearly defined portions thereof. Responsibility means actually performing, managing, and supervising the work with its own forces. The DBE joint venture partner must share in the capital contribution, control, management, risks and profits of the joint venture commensurate with its ownership interest.
- E. A DBE must perform a commercially useful function pursuant to 49 CFR 26.55, that is, a DBE firm must be responsible for the execution of a distinct element of the work and must carry out its responsibility by actually performing, managing and supervising the work.
- F. The proposer shall list only one subconsultant for each portion of work as defined in their proposal and all DBE subconsultants should be listed in the bid/cost proposal list of subconsultants.
- G. A prime consultant who is a certified DBE is eligible to claim all of the work in the Contract toward the DBE participation except that portion of the work to be performed by non-DBE subconsultants.

5. RESOURCES

- A. The CUCP database includes the certified DBEs from all certifying agencies participating in the CUCP. If you believe a firm is certified that cannot be located on the database, please contact the Caltrans Office of Certification toll free number 1-866-810-6346 for assistance.
- B. Access the CUCP database from the Department of Transportation, Office of Civil Rights website
 - 1. Click on the link titled Disadvantaged Business Enterprise;
 - 2. Click on Search for a DBE Firm link;
 - 3. Click on [Access to the DBE Query Form](#) located on the first line in the center of the page.

Searches can be performed by one or more criteria. Follow instructions on the screen.

6. MATERIALS OR SUPPLIES PURCHASED FROM DBES COUNT TOWARDS THE DBE GOAL UNDER THE FOLLOWING CONDITIONS:

- A. If the materials or supplies are obtained from a DBE manufacturer, count 100 percent of the cost of the materials or supplies. A DBE manufacturer is a firm that operates or maintains a factory, or establishment that produces on the premises the materials, supplies, articles, or equipment required under the Contract and of the general character described by the specifications.
- B. If the materials or supplies purchased from a DBE regular dealer, count 60 percent of the cost of the materials or supplies. A DBE regular dealer is a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the Contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. To be a DBE regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question. A person may be a DBE regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone or asphalt without owning, operating or maintaining a place of business provided in this section.
- C. If the person both owns and operates distribution equipment for the products, any supplementing of regular dealers' own distribution equipment shall be, by a long-term lease agreement and not an ad hoc or Agreement-by-Agreement basis. Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not DBE regular dealers within the meaning of this section.
- D. Materials or supplies purchased from a DBE, which is neither a manufacturer nor a regular dealer, will be limited to the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on the job site, provided the fees are reasonable and not excessive as compared with fees charged for similar services.
